This catalog describes a collection of 290 reels of audio-taped lectures suitable for the college and secondary school library. In total, the tapes represent a basic collection suitable for any college library. Most of the reels contain 45 to 60 minutes of recording. The 556 selected programs cover 24 academic subject areas, including foreign languages, Black culture, literature, Shakespeare, poetry, reading, writing, economics, Civil War, art, teaching, and science. There are 290 reels (556 selected programs) of audio-tape listed in this catalog. In total, the tapes represent a basic collection suitable for any college library. Most of the reels contain 45 to 60 minutes of recording. The programs are academic in content and designed to aid the teacher, primarily at the secondary and college levels. Twenty-four subject areas are represented.

All programs are recorded on high quality 1.5 mil polyester (Mylar) tape, at speeds of either 3 3/4 or 7½ inches per second. Reel size is seven inches. Cassettes are not presently available. Using the open reel as a master tape, schools are free to make their own cassette copies.

For the librarian or audiovisual director who is about to start an audio-tape collection, there is available a useful manual entitled THE AUDIO-TAPE COLLECTION - A LIBRARY MANUAL ON SOURCES, PROCESSING, AND ORGANIZATION. Written by a professional librarian, this guide provides all the information necessary for initiating and developing an audio-tape collection. It can be purchased for $2.00 from Mr. Dale E. Shaffer, Library Consultant, 437 Jennings Avenue, Salem, Ohio 44460.

All material described in this catalog is available at a cost of $8.00 (duplication fee) per reel from:

The entire collection of 290 reels can be purchased at a discount price of $2,000 (a savings of $320). A 10% discount is given on other purchases of 50 reels or more. Only one sample tape will be sent for previewing purposes.
